Veronica Gale Leonard, C'87 graduated from Spelman College with a B.S. in Computer Science. She later matriculated at Johns Hopkins University obtaining her M.S. in Computer Science. Veronica is currently a contracted project manager working in Systems Engineering for Perspecta Corporation. She has been in the field of information technology for 33 years.

Veronica is the mother of three who all attended Historically Black Colleges and Universities—two graduates and one still matriculating.

Veronica has been active in the NAASC for several years working with various committees locally with the Southern Maryland chapter. In the Southern Maryland chapter, Veronica had the opportunity to serve the offices of President, President-Elect, and Corresponding Secretary. At the national executive level, Veronica has served as the Assistant Recording Secretary.

In her spare time, Veronica is active with community projects of Design the Education System of the Future Working Group, Society, Inc. and Delta Sigma Theta Sorority, Inc. After long days of work, Veronica stays busy playing golf and punishing others with her tennis serve!
